**Re: Exploration of a South Carolina Competitive Procurement Program for the Competitive Procurement of Energy and Capacity from Solar and Other Renewable Energy Facilities by an Electrical Utility as Allowed by South Carolina Code Section 58-41-20(E)(2)
Docket No. 2019-365-E**

Correction to Informational Filing Concerning Stakeholder Engagement Related to Potential 2022 Solar Procurement

Dear Ms. Boyd:

On February 3, 2022, Duke Energy Carolinas, LLC (“DEC”) and Duke Energy Progress, LLC (“DEP,” together with DEC, the “Companies”) filed an informational letter with the Public Service Commission of South Carolina (“Commission”) related to stakeholder engagement the Companies are conducting associated with the potential for a system-wide competitive procurement of energy and capacity from solar facilities that may be conducted in 2022. The letter provided an incorrect email address for related communications from interested stakeholders. Market participants and other stakeholders interested in participating in future 2022 solar procurement stakeholder meetings, or providing comments or feedback to the Companies, should contact the Companies at 2022SolarRFP@duke-energy.com.

Kind regards,

Sam Wellborn
